IPL Project Report and Your Contribution to Progress in Landslide Research and Technology

Dear IPL Project Leader,

This is to kindly remind you that your IPL Project Report for 2023 has not yet been received by the ICL and I would therefore like to request you to submit the Report using the attached form as soon as possible.

You are also cordially invited to contribute to the ICL Open Access Book Series “Progress in Landslide Research and Technology (P-LRT)”. P-LRT has attracted immediate high interest and attention across the globe as shown in more than 300,000 Accesses in 1.5 year following the publication of the founding issue in January 2023. Volume 3, Issue 1 has just been published in this June, and Volume 3, Issue 2 will be published by the end of 2024.

As an active ICL member and the IPL project leader, your contribution to P-LRT will benefit the Society and facilitate practical application of your landslide research and technology worldwide. Please submit your interest and potential title of your article using the Flyer form attached herewith.

By contributing to P-LRT, you are eligible for the ICL Book Article Award and the IPL-KLC Award for Success, both of which were established in 2023.

Many thanks for your invaluable contributions to the ICL and the global Landslide community.

Best regards,

Shinji Sassa

Chair of ICL Network Committee and Acting Executive Director of ICL
